TAMPA KIOSK

DATA SHEET
ROBUST AND RELIABLE

Experience streamlined efficiency with our cutting-edge kiosk, engineered specifically for truck driver check-ins. This innovative solution not only enhances traffic flow within your yard but also elevates overall efficiency.

Designed for versatility, our kiosk offers in-lane services, enabling drivers to check in without leaving their vehicles—optimizing yard space and bolstering driver safety.

Enhance your supply chain operations and fortify site security with self-service kiosks.
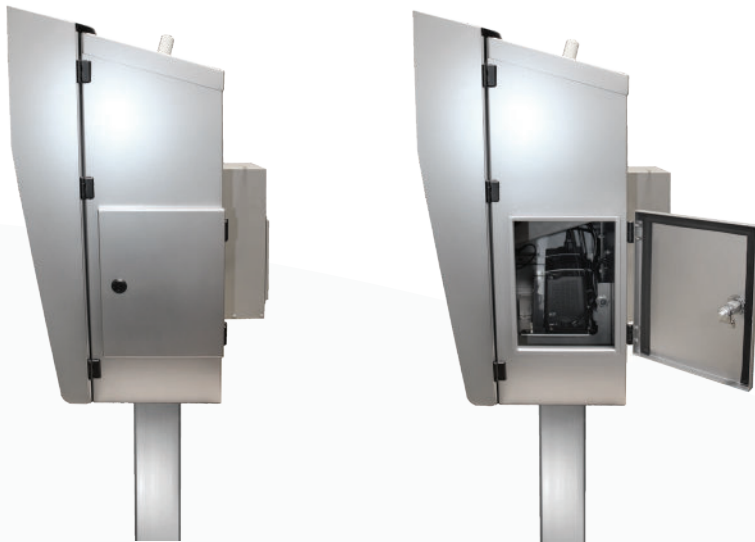

BRINGING EXCELLENCE TO THE USER EXPERIENCE

- Driver Check-in / Yard Management
- Smart Bill of Lading
- Load Weigh Scales

TAMPA KIOSK

KEEPING IT SIMPLE

This outdoor kiosk is a workhorse when it comes to yard management.

The Tampa is perfect for deploying in-lane. With its robust design, drivers can easily pull up alongside the unit, confirm identification, and take care of any paperwork.

The 15" monitor provides an interactive experience while maintaining a functional and clean modular design.
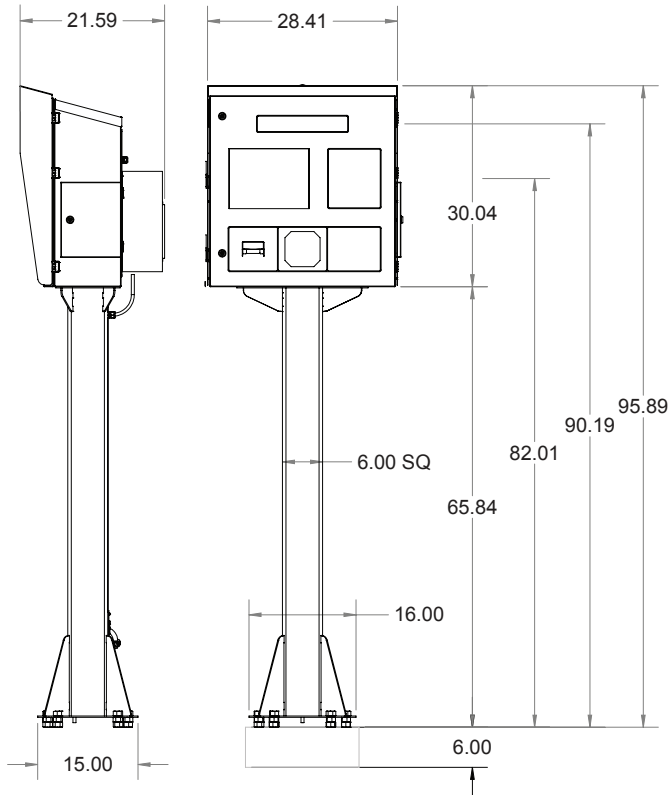

- Pole mounting to accommodate various vehicle heights for in-cab check-in.
- Can be equipped with an intercom system to communicate with staff.
- Side access door to permit kiosk servicing while truck is in-lane.
- Add an optional I/O control for gate or door access.

A simple outdoor unit that is perfect for automating check-in, validating driver identification, and confirming load details.
